Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

THE UNIVERSITY PRESS, NOTRE DAME, INDIANA

CACTUS For the WINDOW GARDEN or JARDINIERE

To the amateur who, though dwelling in the suburbs, may possess but little knowledge and less facilities for proper cultivation, these plants possess unequalled advantages in their ability to withstand neglect or even absolute abuse, while on the other hand, no plants respond more generously to intelligent care.

12 Cacti and Succulents - - - $1 00
20 Cacti and Succulents - - - 2.00
All different and every one correctly labeled

Large illustrated catalogue free with any of the above collection, or upon receipt of twelve cents in stamps for postage, which may be deducted from first order.

WEINBERG, Woodside, L. I.

NOTE.

Contributions on general and midland natural history will be gladly received. Papers on botany and allied subjects should be addressed to the editor. Articles on Zoology, geology and physical geography may be sent to

A. M. KIRSCH,
Dept. Zoology, The University
Notre Dame, Ind.

Matters relating to advertisements are to be taken up with the secretary of the University.

One hundred reprints of articles averaging eight pages or more will be furnished *free of charge* to contributors. More than one hundred separates can be obtained at cost price of the extras. When articles consist of less than eight pages, a certain number of copies of THE AMERICAN MIDLAND NATURALIST in which the paper appeared will be supplied free, or the separate articles may, by arrangement with the editor, be kept until future papers average eight pages, provided the contributions are sent in for the next consecutive issue for publication. Contributors of articles will receive a free subscription for the year in which their paper appears. For further or other information address

THE EDITOR, Notre Dame, Indiana.
